**Create a BIG and
Lasting Impression**

COLOSSUS

Go Big or Go Home!

At LAVA® World International, Inc., we're all about having fun, and lots of it! For us, having fun is more than just an attitude; it's a belief that permeates our company and the products we offer. In line with this philosophy, we're pleased to offer our latest release: Colossus—a larger than life example of our goal to create fun at the very highest level! Standing over 4 feet tall and tipping the scales at 110 lbs., Colossus is the largest LAVA® brand motion lamp ever created by our company.

No Sissies Allowed

Looking for an accessory to add a subtle flair to your interior space, Colossus may not be for you. Rather, Colossus has been designed for anyone with the desire to create a significant and lasting impression with clients, partners, employees, or friends.

As the saying goes, go big or go home. If this is how you operate your business or home, we've built Colossus just for you! No matter if you're an ad agency, creative development firm, trendy night club, architectural firm, Fortune 500 company, an avid LAVA® brand motion lamp collector or simply someone looking to add a groovy look to your environment, count on Colossus to add a unique element to your lobby, lounge, business or home interior.

Form Meets Function

Created from hand-blown glass, Colossus is available in four different base options including marble, wood and granite simulated finishes or the original brushed aluminum. There are also five unique lava globe color combinations to match any interior including red wax with clear liquid, black wax with clear liquid, yellow wax with purple liquid, pink wax with purple liquid, and yellow wax with blue liquid.

How to Buy Colossus

To learn more about Colossus, or to make a purchase online, visit us at www.lavacolossus.com. Here, you can even build your own Colossus lamp by mixing and matching our globe color combinations with base options. Considering the selection of options and accessories, LAVA® is confident that Colossus can be customized to meet your individual taste and functional needs.
